

Dr. David Renter is a Professor of Veterinary Epidemiology and the Director of the Center for Outcomes Research and Education in the College of Veterinary Medicine at Kansas State University. Prior to joining the K-State faculty in 2005, Dr. Renter was a veterinary epidemiologist with Alberta Agriculture where he focused on surveillance of animal infectious disease and food safety issues. Dr. Renter earned his Bachelor of Science degree from the University of Nebraska at Kearney, and both his D.V.M. and Ph.D. degrees from Kansas State University. Dr. Renter's outcomes-based research enables valid data-driven decisions to improve animal health/well-being, food safety, production efficiency, and economic viability of animal health systems. He also teaches epidemiology and mentors students in DVM, MPH, MS, and PhD programs. Dr. Renter has engaged, leadership roles in several professional organizations, and has received awards for his research, teaching, and service efforts.
